CUT 5

DESCRIPTION

High Performance Polyethylene (HPPE) yarn provides excellent cut resistance while maintaining flexibility and dexterity.
Polyurethane coating will stretch with the hand, provide good grip and is form-fitting to reduce hand fatigue and increase worker comfort and productivity
Knit Wrist helps prevent dirt and debris from entering the glove

COMPOSITION

Coating: Grey PU
Liner: Grey HPPE + Glass fiber shell in 13 gauge

RECOMMENDATION

Cut-resistant gloves are designed to protect working hands in industries where sharp tools and sharp materials are present.
Increased cut protection can be achieved with: increased material weight (ounces per square yard), use of high performance fibers (HPPE, Kevlar®), and use of composite yarns made with varying combinations of stainless steel, fiberglass and high performance materials.
